Summary

Audit-trained accountant taking assignments from small and mid-size CPA and accounting firms: a defined scope, a deadline and an agreed fee. Two years of audit, credit-analysis and tax-compliance work at a Chartered Accountancy firm in India, across bank, NBFC, manufacturing and hospital engagements. CA Intermediate (Groups I and II) and B.Com. Strong in Excel, with Tally ERP and Catpro. Not a CPA: all work is prepared for the firm's review and sign-off. New to US GAAP, US tax and US accounting software, and open about it.

Chartered Accountancy practical training

- Statutory and concurrent audits for major public- and private-sector banks, and a stock audit for a major private-sector bank.
- Financial-statement analysis for credit applications.
- Internal audit for a systemically important, non-deposit-taking non-bank finance company (NBFC) in vehicle finance.
- Internal audit exposure at a large manufacturing and export business, including contribution to a substantial final audit dossier.
- Audit work involving a large semi-private hospital in Punjab.
- Direct-tax (income tax) compliance, including preparation and review of tax-related information and filings, plus exposure to Ministry of Corporate Affairs (MCA) and company-law compliance.
- Checked figures against source records, explained differences and documented the work so a reviewer can follow it, to fixed reporting deadlines and with confidential information.
